Do We Need a Recession?

the duality of data and the concept of resets

But do we *need* a recession?

-

Inside us there are two wolves - the stock market and the economy.

Final Thoughts

jason
@nonlinearnotes

we are reaching a real breaking point: pandemic fatigue, inflation, a housing crisis, the narrowing of women's rights, mass shootings. all this (and much more) as a conservative SCOTUS remaps every progressive law. and with no time to properly process because we are busy working
